AT the risk of tiring our readers by singing

the same old song, we must again enter adopt in withholding the report of the recent Commission to investigate the question of the injury to the trade of this port which has been done or is being done by the Chinese revenue cruisers. It is but another illustration of that desire to get clear of publicity which has so often been shown by the local Government, and which has elicited the above subject :such well-merited protests from the public. From the way in which the executive almost always act in matters of this kind, one would imagine that the Colony was made for officials, and not officials for the Colony. Who is it that | following resolutions were manimonally adopted is mujuly interested in the question whother the trade of this port is unduly hampered Is it the Governor or Secretary of State for the Colonies, or is it the merchants in the place? Who are likely, is it thought, to be of the Commission's report, the Governor whose chief experience has been on the West Coast of Africa, or the COLONIAL-SECRE-TARY whose chief experience has been in the West Indies, or merchants who have spent perhaps ten; fifteen or eventy years in of the Commission in making such representa-China, and know every inch of the ground greivances so long complained of, and whereas connected with the China trade? Yet for some reason the Secretary of State for the Colonies will be favoured only with that they would receive a copy of the Report. the Government views of the report, and the Chamber of Commerce must send forward what they have to say in ignorance of what is contained in that report, though their own Chairman was on the Commission, and was especially deputed by the Chamber to sit upon it. The whole affair is such a ridiculous farce that it is almost impossible to keep serious with regard to it. The Chairman of an application in the name of the Chamber be the Chamber of Commerce, if he has an ordinarily sound mind, will, according to the mission." concurrent opinion of all metaphysicians from Locke to HAMILTON be possessed of the faculty of memory, and, being blessed with this power, can of course frame a momerial upon it embodying all the comment which the Chamber may wish to make in the attention of the proper authorities in respect form of answers to suppositions. The form adopted might be to the effect that the Chamber are unfortunately in ignorance of what the report contains, but, supposing it sets forth so and so, then they would recom- part of the Government and of the community mend so and so or, say so and so. If the long existing ansatisfactory state of affairs hoped that, as a lesson to the Government co little surprise that a copy of the Report of remanded. here as to the practical advantage of withholding publicdocuments, they will do so itis rather difficult to see what particular end the sideration of Her Majesty's Secretary of State local anthorities will have gained by keeping for the Colonies. But as it is always the Best policy in such cases to ment the public frankly, we do not imagine for a moment that any such idea as this can have influenced the Government, and conclude that the rejusal of the report must result from some kind of fancy, perhaps on account of the weather being rather warmer thanneual at this time of year. In what way lot-

loss to understand. Not having the report before us, we cannot of course speak with any certainty upon this interesting and delicate point; but of this much we are certain, to show this point very clearly indeed to satisfy the Secretary of State for the Colonies that they were justified in treating the Chamber of Commerce and the public here in so off-handed a manner as to refuse them information of this description. The present Secretary of State, one of the most popular a sound respect for public opinion, and a Colonies. genuine regard for the public rights. It is to this no doubt that he owes his popularity, and the universal confidence reposed in him. It is not likely, therefore, that he will be very wuch pleased by the local Government having deliberately given such cause of offence to the community as they have in this matter; and he will doubtless call upon the officials here to show very clearly the reasons why a large Diplomatic Question to be referred to him and we presume also to the Foreign Office, should have been made out of THE VARIOUS HOUSE FLAG a matter which as is shown by what was done by Sir Ricuann MacDonnell in simi- Noble and Adolph Helland. lar cases, could with a little firmness and tact be much more easily settled by referring

APPLICATION OF DISSOLVED PERUVIAN GUANO TO COLONIAL PRODUCE. SUGAR CANE. Dissolved Pernyian Guano produces heavy gropa of well matured Causes, rich in jures yielding a high percen-tage of Crystallizable Sugar, without detriment to the soil. From 8 to 4 cwts. is a good dressing for Sugar Cause. A

few trials in competition with other marities will soon convince the Planter that no manure yields so large a profit to the increased production of Sugar as Dissilved. We should strongly recommend the use of Lto Bewis. par sore for Rice, for, although irrigation is generally tolely relied upon as a means of producing a good stop of Rice, there can be no doubt that, in addition to irrigation, 2 or 3 cwts. of Disselved Peruvian Glisto per acre will

be highly beneficial. We are confident that Disselved Peruvian Guano will be highly estroned as a manure for Tea, and we recom-mend say B swis. to the Acro, mixing it first with regalable sence or dry soil, so as to secure its uniform histric

The vield of Cotton has of late years been greatly in-creased by the use of artificial manures, confirming a fair proportion of ammonia and much soluble phosphate of lime, potash, and other alkaline salts. Dissolved Peruvian Guano mosts the requirements of the Cottos plants insmuch as it furnishes all the elements, of furtility which owter, of mineral superphosphate, per more, will be found to answer better.
